

All-Genus 2D $\mathcal{N} = 1$ Superconformal Blocks

Sam Christian,^{*} Yuchen Wang,[†] Xi Yin,[‡] and Yutai Zhang[§]

Jefferson Physical Laboratory, Harvard University, Cambridge, MA 02138 USA

(Dated: August 26, 2026)

We do something that is extremely conformal and very block. Based on the work of LaTeX, we build this PDF file successfully.

INTRODUCTION

c -RECURSION FOR NS BLOCKS

RAMOND BLOCKS FROM DOUBLE VIRASORO

DISCUSSION

ACKNOWLEDGEMENTS

We are grateful to Ben Mazel, Victor A. Rodriguez, and Jaroslav Scheinpflug for discussions. This work is supported by DOE grant DE-SC0007870.

Introducing what should be introduced
